The establishment that employs Rene is world-famous for its efforts to fulfill any and all sexual needs, however strange or exotic. Rene is one of the girls who provides men with painful beatings and then soothes them with blissful sex. She enjoys every minute of her work.

Still, Rene has a hard time when it comes to controlling her anger. She expects her slaves to do as she commands—and they'd better do it instantly. If not, she may lose her temper. And when Rene loses her temper that means that some slave has just volunteered his body to be used as Rene's whipping-post. That is an experience that is going to leave scars on mind and body.

To insure the male's total and complete submersion of his personality in hers, she forces him to wear an expressionless mask, to remove from him every vestige of personal identification. When she strikes a slave so equipped, it is not the man she's striking, but all men, everywhere. Stephane detests everything masculine, a feeling she's had ever since she was a girl forced to scramble for a living in the gutters of Paris.

If her students could see her at home, they would understand why Monica is so fascinated by pain and torture. Monica is a dominatrix. her private sex life is a series of brutal conquests as she takes first one man and then another. Before they are allowed to enjoy Monica's beautiful body, the men must become her slaves.
